LADIES' COLUMN.

In entering upon the New Year, we do so realizing that nothing can give the intelligent or judicious buyers more satisfaction than to have us stick to our QUICK SALES AND SMALL PROFITS SYSTEM. It has been the means of saving them money on every purchase made of us. While to us it has increased our trade from the day we adopted it.

We will have no shelves for shop worn goods. NEW GOODS, GOOD GOODS, STYLISH GOODS, and plenty of them, with a reasonable price fixed on them will be the order of this coming year's business. We want your trade and will have it, if goods and prices have anything to do with your buying.

We propose to keep in touch with New York, Paris and London, at as near their prices as is consistent.

Each DEPARTMENT in the STORE will be found to contain a CHOICE and VARIED SELECTION of the NEWEST and most FASHIONABLE MATERIALS and GARMENTS of every description. We want you to get into the habit of expecting this, and inspecting our stock. It will save you time, trouble and money.

This week we have some fine INDIAN RUGS, some CARPETS and CURTAINS that you will make no mistake by buying.

Real Estate and Loans

The enlargement of the LOAN Market so as to cover the wants and necessities of the large number of honorable people who are not owners of unimproved Real Estate was one of the most necessary innovations of recent years. To many it has meant relief from pressing claims at the very time when most essential. When property and honorably conducted this business is of equal great importance and value to the community as building and loan associations have proved themselves to be.

The Hawaiian Investment Co.

Makes a specialty of Negotiating and Procuring Loans for Borrowers who are unable to discount their Notes at the Banks and who do not care to obligate themselves to some friend or acquaintance by asking his endorsement to their Note. This Company will make Loans upon Household Furniture, Pianos, Organs, Horses, Mules, Wagons, Carriages and Personal Property without removing the Property from the Borrower's possession, and all business will be conducted on a STRICTLY CONFIDENTIAL BASIS.

POPULATION IN TWENTIETH CENTURY.

French Statistician Shows How the Rate of Increase Will Vary.

A well-known French statistician computes the following figures, based on present statistics, for the end of the Twentieth century. According to his tables the population of the earth at that time will be:

Europe, 780,000,000 (at present, 364,000,000).

Asia, 1,100,000,000 (at present, 830,000,000).

America, 685,000,000 (at present, 125,500,000).

Australia, 30,000,000 (at present, 5,700,000).

Africa, 200,000,000 (at present, 170,000,000).

Thus America will be first in regard to increase and Europe second, while the ratio of increase will grow steadily larger in America and smaller in Europe. The decline of the ratio of increase, which may be already observed in France, will extend in rotation to Germany, Italy, England, etc.

The population of the various countries at the end of the next century is given thus:

Russia, 340,000,000.
Germany, 115,000,000.
France, 55,000,000.
China, 550,000,000.
United States, 400,000,000.
Mexico and Brazil, 150,000,000.
Canada, 40,000,000.

Argentine Republic, 30,000,000.

English will probably be spoken in 1994 by more than 500,000,000, German by 120,000,000, French by 120,000,000, Spanish and Portuguese by 235,000,000 people.

Horses and Electricity.

The horse is easily killed by electricity. It is popularly supposed that the current on entering the body, meets with some physiological susceptibility that makes this animal more vulnerable than others to the action of such a current. The London Lancet holds that there is no good ground for this assumption. The explanation lies elsewhere. The hoof, and more particularly its crust and sole, is a good insulator, but the shoe presents a current directly from the metallic conductors in the shape of nails, which pierce the strongest part of the insulation and afford an easy electrical path into the body.

The contact with earth is further improved by the great superincumbent weight of the animal, and it may often happen that in passing over wet ground the external surface of the hoof and the wet fetlock, especially in the case of untrimmed horses, may become sufficiently wet to form a good surface conductor, and so carry a current directly from the earth to the upper part of the body. In this way the safety of the natural resistance of the hoofs is neutralized. A horse, too, covers more ground than a man and runs greater risk from being in contact with points of ground further apart. Farmers ought to consider the above well, so as to induce them to bestow extra care upon the driving of the nail, to see that it does not penetrate to the quick.—Boston Transcript.

Ringing Noises

In the ears, sometimes a roaring, buzzing sound, are caused by catarrh, that exceedingly disagreeable and very common disease. Loss of smell or hearing also result from catarrh. Hood's Sarsaparilla, the great blood purifier, is a peculiarly successful remedy for this disease, which it cures by purifying the blood.

Hood's Pills are the best after dinner pills, assist digestion, prevent constipation.

Too High!

—So Says the Uninitiated—

Do Not Be Deceived!

Do Not Deceive Yourself!

Make honest comparisons—not between St. Petersburg and Honolulu, but between our prices and prices prevailing in other establishments HERE. We are selling Solid Silver.

Tea Spoons

as low as \$12 per dozen. Think of it! \$1 for a Solid Tea Spoon of good weight and size; heavier patterns at the same low rate per ounce. We further engrave initials free of charge on all our Silver Ware; thus saving you many more dollars, and still further reducing the cost of our silver to you—over fifteen patterns to choose from.

We are selling Sterling Silver Cuff Links for 75c, and \$1 per set; and yet have never bragged about it; while the quality of our goods has steadily GONE UP, our prices have constantly GONE DOWN.

The volume of business done daily in our Store, is proof of the appreciation held by the general public of our immense stock; of the newness of everything in it; of the ease with which your wants can be supplied. There is no need calling your attention to THE QUALITY of our Silver—people know a good thing when they see it, and you know we buy only the best.

A Cyclone

struck my store during December. It was a strong, vigorous, full grown affair, and had no respect for other people's feelings. It would push its way in through the front door rummage among my choice goods, tear down, pick to pieces, growl at everything except the quality and price, buy a paper of Pins or a Silk Dress, go out and come back in a short time reinforced by neighboring cyclones. This nagging during the month has made me gray before my time, and standing in the middle of the store at 12 P. M. on December 31, 1894, I was glad to say "Pau." Feel somewhat better this week and have arrived at the conclusion that I will hold my Annual Clearance Sale. Now a clearance sale may mean nothing or everything. In my lease it means everything. I have a large assortment of goods on hand that I must get rid of before the return of next Australia. I must have shelf room and to get it I am prepared to make a sacrifice. Everything must be sold. Now each week I am going to offer something special, this time it is millinery. Nowhere in Honolulu can you buy Hats and all the attachments thereto for the next week as cheap as at Egan's. No other house in the city can sell these goods at 50c on the \$1. We can't keep it up long, but will endeavor to satisfy everybody as long as the Hats and Feathers last. And remember that you get two dollars' worth for one of King Kakaia's silver cartwheels.
